#### D. *Purpose and Background*

The specific purpose and background of the proposed amendment is described in more detail under the summary of proposal.

#### E. *Summary of Proposal*

Glade Run Lake is a 52-acre impoundment owned by this Commonwealth, managed by the Commission and located in Middlesex Township, Butler County which is approximately 10 miles south of the City of Butler. The dam impounds Glade Run at river mile (RM) 9.3 upstream from its confluence with Connoquenessing Creek at RM 34.3. This reservoir was completely dewatered during the spring of 2011 to upgrade the dam and spillway structures per Department of Environmental Protection dam safety standards. Following the completion of these repairs and modifications, refill occurred in the winter of 2017, and the Commission stocked the lake from 2017 through 2023 with select fish species, to establish a high-quality, warm-water and cool-water fishery.

Since 2017, Glade Run Lake has been managed under § 65.24 which allows for the harvest of trout under § 61.1 (relating to Commonwealth inland waters), seasons, sizes and daily limits but no harvest of other fish species. The intent was to facilitate rapid development of the warm-water and cool-water fish populations in the absence of harvest while allowing for the harvest of trout as the lake is included in the Commission's Stocked Trout Waters program. Once the warm-water and cool-water fish populations were sufficiently reestablished, the lake would then be recommended for removal from the miscellaneous special regulations and moved to one or more of the Commission's existing regulation programs.

The black bass and panfish populations were evaluated from 2019 through 2023 to monitor progress toward development of a high-quality, warm-water and cool-water fishery. Sportfish abundance and population size structure have improved to levels where populations can now sustain limited harvest. As such, it is recommended that Glade Run Lake be deleted from miscellaneous special regulations, allowing Commission staff to consider this reservoir for management under §§ 65.9 and 65.11 (relating to big bass; and panfish enhancement).

The Commission proposes that § 65.24 be amended to read as set forth in Annex A.

#### F. *Paperwork*

This proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

#### G. *Fiscal Impact*

This proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions.
